

Curriculum Vitae: Shabbir H. Gheewala

Professor and Head
Life Cycle Sustainability Assessment Lab
The Joint Graduate School of Energy and Environment (JGSEE)
King Mongkut's University of Technology Thonburi (KMUTT)
126 Pracha Uthit Road, Bangmod, Tungkrui, Bangkok 10140, THAILAND
Tel: (66)(2)470 8309/10 ext. 4139 Fax: (66)(2)872 9805
e-mail: shabbir.ghe@kmutt.ac.th; shabbirg@hotmail.com

Professional qualifications:

- **D.Eng.** (2001): Environmental Engineering, Asian Institute of Technology, Thailand
- **M.Eng.** (1995): Environmental Engineering, Asian Institute of Technology, Thailand
- **B.Eng.** (1992): Civil Engineering, Jadavpur University (First class honours), Calcutta, India

Academic positions:

- Distinguished Adjunct Professor, Asian Institute of Technology, Thailand (2015 onwards)
- Adjunct Professor, University of North Carolina at Chapel Hill, USA (2012 onwards)
- Adjunct Professor, Diponegoro University, Indonesia (2022 onwards)
- Honorary Professor, Prince of Songkla University, Phuket campus, Thailand (2018 onwards)
- Subject Editor, International Journal of Life Cycle Assessment, Springer
- Editor, Sustainable Production and Consumption, Elsevier
- Academic board member, Journal of Cleaner Production, Elsevier
- Editor-in-Chief: Journal of Sustainable Energy and Environment
- Specialty Chief Editor: Frontiers in Sustainability (Quantitative Sustainability Assessment)
- International editorial board member, Indonesian Journal of Life Cycle Assessment and Sustainability
- International advisory board member, International Journal of Renewable Energy Development
- Founding member, International Society for Energy Transition Studies
- Member, International Life Cycle Academy
- Member, International Advisory Board, Ecobalance conference, Japan
- Member, Scientific Committee, LCA Food conference
- Member, Thai Carbon Footprint methodology development committee

Professional experience:

Professor at JGSEE, KMUTT (Jun 2010 – present)

Associate Professor / Assistant Professor / Lecturer at JGSEE, KMUTT (Mar 2002 – Jun 2010)

Researcher at the Asian Institute of Technology (Sep 1995– Feb 2002)

Design Engineer at F. Harley and Co. Pvt. Ltd., India (1992 – 1993)

Research projects:

Conducted over 60 research projects on sustainability assessment of biofuels, life cycle assessment of agriculture and energy systems as well as product carbon and water footprinting.

Research supervision:

Supervised 30 PhD students, 30 Masters students and currently mentoring 2 post-doctoral candidates.

Publications:

Over 300 papers in peer reviewed journals, 20 book chapters and 180 conference papers. Scopus h-index of 52.

Awards:

- Mahidol Science Environment & Sustainability Award 2022
- Distinguished Alumni Award in academic and research excellence, Asian Institute of Technology Alumni Association (2021)
- World's top 1000 most influential climate scientists (Reuter's Hot List 2021)
- World's top 1% of the most-cited researchers in "Earth and Environmental Sciences" (Stanford University and Elsevier) (2020, 2021, 2022, 2023)
- **Research Chair Professor** granted by the National Science and Technology Development Agency, Ministry of Science and Technology, for "Network for Research and Innovation for Trade and Production of Sustainable Food and Bioenergy" (2016)
- **Silver Award** from Kasetsart University for high impact research on trade and sustainable development of the Agrifood Industry (2014)
- **Excellent research award** for contribution to National Life Cycle Inventory Database for Green Product Development (Shrimp) from the Thailand Research Fund (2013)
- **Excellent research award** for contribution to National Life Cycle Inventory Database for Green Product Development (Rice) from the Thailand Research Fund (2013)
- **Gold Award** from Kasetsart University for designing Carbon Footprint Calculator to help the Agrifood Industry (2012)

Recent projects (selected):

International grants

- ***Strengthening resource efficiency and sustainable consumption & production.*** Conducting a Leadership Academy on Communicating Circular Economy in collaboration with Ekconnect Foundation. Updating and finalizing regional indicators and database on resource efficiency in Asia. The project is funded by the United Nations Environment Programme (UNEP) (Nov 2020 – Aug 2021).
- ***Mainstreaming coherent and effective sustainable consumption and production policies, including through circular economy models: Best practices and recommendations.*** Technical assistance provided at the national and subnational levels to support the promotion and implementation of cleaner, resource-efficient production technologies and practices in industries, including small and medium-sized enterprises. The project is funded by the United Nations Environment Programme (UNEP) (Jun – Dec 2020).
- ***Analysis of Future Mobility Fuel Scenarios Considering the Sustainable Use of Biofuels and Other Alternative Vehicle Fuels in East Asia Summit Countries.*** Integrated project in ASEAN led by the National Institute of Advanced Industrial Science and Technology (AIST) and funded by the Economic Research Institute for ASEAN and East Asia (ERIA) (Jan 2021 – Dec 2023)
- ***Palm Oil: Sustainability, Health and Economics.*** Assessed the sustainability, health and economic aspects of palm oil in Thailand to use for policy decision making in the future. The project was led by the School of Oriental and African Studies (SOAS), University of London and has the London School of Hygiene and Tropical Medicine, Chiang Mai University, University of Copenhagen and Stanford University as the other partners. It was funded by the Wellcome Trust, UK (Sept 2014 – Dec 2017)

National grants

- ***Research Team Promotion Grant.*** The project is for mentoring a group of 15 researchers from different universities in Thailand over a period of 3 years under the topic "Moving towards carbon neutrality and sustainability of food, feed, fuel through BCG using life cycle thinking". The grant is awarded by the National Research Council of Thailand (NRCT) (April 2022 – March 2025).
- ***Research Chair Professor grant.*** Mentoring a group of 10 researchers from different universities in Thailand over a period of 5 years under the topic "Network for Research and Innovation for Trade and Production of Sustainable Food and Bioenergy". The grant is awarded by the National Science and Technology Development Agency (NSTDA) (Jan 2017 – Dec 2021).

- ***Life cycle sustainability assessment and sustainable rice standard adoption to enhance the marketing competitiveness to move towards sustainable Thai rice industry.*** Project led by Kasetsart University and funded by the Agriculture Research and Development Agency (ARDA) (Feb 2022 – Feb 2023). [Project advisor]
- ***Food Waste National Baseline and Food Waste Index for Monitoring the Progress of SDG 12.3.1.*** Project led by Kasetsart University and funded by the Agriculture Research and Development Agency (ARDA) (Feb 2022 –Jan 2023). [Project advisor]
- ***Implementation of Extended Producer Responsibility for Recycling and Sustainable Packaging Management Towards Circular Economy.*** Project led by Kasetsart University and funded under the PMU C, Circular Economy of the Ministry of Higher Education, Science, Research and Innovation (Mar 2022 – Feb 2023). [Project advisor]
- ***Production Cost and Life Cycle Assessment (LCA) of MSW Power Generation in Thailand.*** The project was funded by the Department of Alternative Energy and Efficiency (DEDE), Ministry of Energy (Mar–Nov 2019)
- ***Sustainability assessment of sugarcane complex for enhancing competitiveness of Thai sugarcane industry.*** This national project studied the sugarcane industry in Thailand to establish the current status and make recommendations for its further sustainability and competitiveness. It is funded by the National Science and Technology Development Agency (NSTDA) (Sep 2014 – Aug 2016).
- ***Network for LCA and Policy Research on Food, Fuel and Climate Change.*** Mentoring 10 researchers (5 Postdoc and 5 PhD) on LCA of agriculture to develop capacity on LCA in Thailand and produce high quality peer-reviewed journal paper. The project is funded by the National Science and Technology Development Agency (NSTDA) with Royal Golden Jubilee PhD scholarships from the Thailand Research Fund (Sep 2012 – Sep 2016).
- ***Sustainability assessment of oil palm value chain for food, fuel and other high value added products in Thailand.*** A national project funded by the Agriculture Research and Development Agency (Aug 2016 – Aug 2018).
- ***Water footprinting of food, feed and fuel for effective water resource management (Phases I and II).*** This national project had Kasetsart Univ. as a partner and was funded by the Thailand Research Fund (Apr 2012–Mar 2013; Oct 2013-Sep 2015).

Corporate grants

- ***Life Cycle Assessment of Aluminium Alloy Coils for air conditioner fins.*** Conducting an LCA study on aluminium coils for UACJ (Thailand) Co. Ltd. (Jan – Nov 2023)
- ***Life Cycle Assessment of Aluminium Alloy Coils for Beverage Cans.*** Conducting an LCA study on aluminium coils for UACJ (Thailand) Co. Ltd. (Mar – Nov 2021)
- ***Water Footprint of Bangchak Petroleum Refinery.*** The project was for supporting Bangchak is conducting water scarcity footprint assessment of their refinery. The project is supported by Bangchak Corporation PCL (July 2017 – July 2018).
- ***Application of water footprint for PTT corporate water accounting and resource efficiency.*** The study applied the concept of water footprint assessment for supporting PTT's corporate water accounting. It helped PTT enhance sustainable water use and become aligned with external stakeholders' expectations. It was funded by PTT Plc (Sep 2013 – Aug 2014).
- ***Life cycle assessment of PTT-LPG cylinders.*** The study aimed to assess the environmental impacts and risks on health and safety aspects over the life cycle of composite and steel LPG cylinders of PTT. The project had Kasetsart University as a partner. It was funded by PTT Plc (Mar 2013– Dec 2013).

Book Chapters (selected):
