

# Stop Restaurant Pollution from Going Down the Stormwater Drain

- ➔ Anything that goes down a storm drain flows into the nearest stream.
- ➔ Make sure the area around the storm drain is always kept clean.

- ➔ Wash water should not be poured on the ground outside.
- ➔ Clean floor mats and dispose of wash water in the mop sink.

- ➔ Grease will clog storm drains and attract pests.
- ➔ Keep grease containers clean and covered.

- ➔ Rain water in the dumpster can cause garbage to leak on the ground.
- ➔ Keep dumpster doors and drain plugs closed.
